BECIL has its Head Office in New Delhi, Corporate Office in Noida and Regional Office in Bangalore and Kolkata. BECIL is exploring geographical expansion in many states due to diversification in business portfolios.

Over the years, BECIL has consciously groomed and developed a team of in-house, versatile and dedicated engineers and also cultivated and harnessing a vast reservoir of professionals drawn from various fields of Broadcasting Industry which includes public and private Broadcasters, Defense and Cable Industry. Through this network of resourceful technical professionals, BECIL has established its pan India presence to serve the needs of the industry.

BECIL has a vast reservoir of experts and integrates the expertise of All India Radio (AIR) and Doordarshan (DD), the national broadcaster of India, creating one of the largest Radio Networks catering to more than a billion people and the world's largest Terrestrial Television Network supplemented by Analogue and Digital satellite Broadcasting services reaching out to millions of TV homes in India and abroad.

2. Introduction of Project

The Ministry of Information and Broadcasting (MIB), Government of India, **has auctioned the 60 new FM channels across 43 new cities and towns in India.**

The Government has also published this notice on its official website (www.mib.gov.in), which will serve as the primary platform for general clarifications, updates, or changes to the notice or auction process. With the expansion, the government aims to make radio a key tool for regional engagement, fostering local culture and enhancing communication across the country. The decision reflects a commitment to democratising access to media, empowering local communities, and supporting India's diverse linguistic and cultural landscape. The rollout is anticipated to position FM Radio as a cornerstone of India's local connectivity and information dissemination.

BECIL, the system integrator plays an important role in setting up of Common Transmission Infrastructures (CTIs) across India for Private FM Broadcasters, for operationalization of their Radio Channels. BECIL procures all the desired material (imported & indigenous) on behalf of the Broadcasters, for setting up of CTI and provides end to end solution to the Broadcasters for setting up of the CTIs.

- Presentation

N.B. : The bidder(s)/Agency(s) will be ranked in descending order according to their assigned marks. All the bidders securing 70% or above marks shall be empaneled with BECIL.

- Evaluation Criteria for placement of Work Order after Empanelment:

- I. Post completion of the empanelment process, for execution of specific projects, Vendors for execution of the projects, will be selected from amongst the empaneled agencies only, through a Limited Tendering Process.
- II. The lowest offers will be decided upon the lowest rates quoted by the particular agency as per the price format given in specific RFP/ enquiry. The Agency who fulfills all terms and conditions of RFP/ enquiry and quotes lowest price, will be awarded Work Order for the specific project.
- III. The consideration of taxes and duties in evaluation process will be as follows:

All taxes and duties quoted by the agency will be considered. The ultimate cost to BECIL would be the deciding factor for ranking of offers.
- IV. The agencies are required to spell out the rates of GST in unambiguous terms. In the absence of any such stipulation it will be presumed that the prices quoted are firm and no claim on account of such taxes & duties will be entrained after the opening of financial bids. If an applicant is exempted from payment of GST up to any value of services from them, they should clearly state that no GST will be charged by them up to the limit of exemption by Government which they may have the documentary evidence for exemption of any statutory duties and taxes has to be produced along with financial bid. If any concession is available in regard to rate/quantum of GST with the approval of Government, it should be brought out clearly. Stipulation like, GST is presently not applicable but the same will be charged if it becomes leviable later on, will not be accepted unless in such cases it is clearly stated by an agency that GST will not be charged by him even if the same becomes applicable later on. In respect of the Applicants who fail to comply with this requirement, their quoted prices shall be loaded with the quantum of GST which is normally applicable on the item in question for the purpose of comparing their prices with other Applicants.
- V. If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price will prevail and the total price will be corrected. If there is a discrepancy between words and figures, the amount in words will prevail for calculation of price.

- VI. The lowest acceptable offer will be considered further for placement of **Work order** after complete clarification and price negotiations if required as decided by BECIL. BECIL also reserves the right to do apportionment of quantity, if it is convinced that lowest applicant is not in a position to provide multiple services within stipulated time and the same will be placed to another applicant at lowest-1 rate. Any other criteria as applicable to suit a particular case.
- VII. The following declaration is to be submitted by all bidders along with their bid:-

SECTION IV- General Terms and Conditions:

1. Relationship between the parties

Nothing contained herein, shall be construed as establishing a relation of master and servant or of Agent and Principal as between the Bidder/Agency and BECIL.

2. Intellectual property rights

2.1. Deliverable, outputs, plans, drawings, specifications, designs, reports and other documents and software submitted by the Bidders under this EOI and subsequent to this EOI in relation with this EOI shall become and remain the property of BECIL/procuring entity and subject to laws of copyright, must not be shared with third parties or reproduced, whether in whole or part, without BECIL's/ the procuring entity's prior written consent.

2.2. The Bidder shall, not later than upon termination or expiration of this Contract and/or subsequent Agreement/Contract signed with the Bidder, deliver all such documents and software to BECIL/the procuring entity, together with a detailed inventory thereof.

2.3. The Bidder shall not incorporate any materials, technology or any item or thing that involves the use of intellectual property rights or proprietary rights that the Bidder does not have the right to use or that may result in claims or suits against BECIL arising out of claims of infringement of any intellectual property rights or other proprietary rights.

2.4. The Bidder shall perform all acts necessary to obtain and continue to have all necessary licenses, approvals, consents of third parties free from any encumbrances and all necessary technology, hardware and software to enable it to perform its obligations under this Contract. If license agreements are necessary or appropriate between the Bidder and third parties for purposes of enabling, enforcing or implementing the provisions hereinabove, the Bidder shall be under an obligation to enter into such agreements at its own sole cost, expense and risk.

3. Land and border provision

3.1. The Undertaking at **ANNEXURE-IX** shall be submitted by the Bidder in line with the guidelines issued vide the Office Memorandum, No. F. No. 6/18/2019 dated 23.07.2020, by the Department of Expenditure, Ministry of Finance, Govt. of India.

3.2. I/We certify that this Bidder is not from such a country or if from such a country has been registered with the Competent authority. I hereby certify that this bidder fulfills all requirements in this regard.

3.3. I/We certify that this Bidder is not from such a country or if from such a country has been registered with the competent authority and will not sub-contract any work to a contractor from such countries unless such contractor is registered with the Competent authority. I hereby certify that this bidder fulfills all requirements in this regard and is eligible to be considered.

4. Indemnity

4.1. The Bidder shall indemnify, save, hold harmless and defend BECIL and its officers, servants, employees and agents promptly upon demand and at its expense, from and against any and all suits, proceedings, actions, demands, losses, claims, damages, liabilities, costs (including reasonable attorney's fees and disbursements) and expenses (collectively, "Losses") to which BECIL may become subject, insofar as such losses arise out of, in any way relate to, arise or result from:

- a) Any Compensation/ claim or proceeding by any third party against BECIL arising out of any act, deed or omission by the Bidder;
- b) Any breach by the Bidder of any of its obligations under this Contract or from any negligence under the Contract, including any errors or deficiencies in the performance its scope of work.

In case any work related to design/ fabrication/ construction of Towers is awarded by BECIL to any bidder/ agency empanelled against this EOI, The bidder/ agency shall be solely responsible for ensuring the safety of all personnel, including its employees, subcontractors, and agents, involved in work performed on or near high towers. Without limiting the generality of the foregoing, the bidder/ agency shall implement and strictly adhere to the following safety measures and requirements:

- a) **Compliance with Regulations:** The bidder/ agency shall comply with all applicable local, state, and national safety laws, regulations, codes, and standards pertaining to work at height, including but not limited to regulations concerning fall protection, scaffolding, ladders, lifting equipment, and electrical safety.

- b) **Risk Assessment and Safety Plan:** Prior to commencing any work on high towers, the bidder/ agency shall conduct a comprehensive risk assessment to identify all potential hazards associated with the work. Based on this assessment, the Contractor shall develop a detailed site-specific safety plan. This plan shall outline the specific safety procedures, equipment, and precautions to be implemented to mitigate identified risks. The Contractor shall ensure that all personnel involved in the work are thoroughly briefed on and understand the safety plan.
- c) **Fall Protection:** The bidder/ agency shall provide and ensure the proper use of appropriate fall protection systems for all personnel working at heights of six (6) feet or more above a lower level. This includes, but is not limited to, the provision and mandatory use of personal fall arrest systems (PFAS), safety harnesses, lanyards, anchor points, safety nets, guardrails, and other fall prevention measures as deemed necessary by the risk assessment and applicable regulations. All fall protection equipment shall be inspected regularly by a competent person in accordance with manufacturer's instructions and applicable standards.
- d) **Competent Personnel:** All personnel involved in work on high towers, including those erecting, dismantling, inspecting, or using scaffolding, operating lifting equipment, or performing any other high-risk activities, shall be competent and adequately trained for the specific tasks assigned to them.
- e) **Safe Access and Egress:** The bidder/ agency shall establish and maintain safe means of access to and egress from all work areas on high towers. This includes the provision of safe and stable ladders, scaffolding erected and inspected by competent personnel, personnel hoists, or other approved methods.
- f) **Weather Conditions:** The bidder/ agency shall monitor weather conditions and shall cease work on high towers if conditions such as high winds, lightning, heavy rain, or other adverse weather pose a safety risk to personnel. Work shall only resume when weather conditions are deemed safe by a competent person.
- g) **Emergency Procedures:** The bidder/ agency shall develop and implement comprehensive emergency procedures to address potential incidents such as falls, injuries, or equipment malfunctions. These procedures shall include provisions for prompt rescue, first aid, and communication. Emergency contact information and evacuation plans shall be readily available at the worksite.
- h) **Inspections and Audits:** The bidder/ agency shall conduct regular inspections of all safety equipment and procedures to ensure ongoing compliance with the safety plan and applicable regulations.
- i) **Indemnification:** The bidder/ agency shall indemnify and hold harmless the Client from and against any and all claims, losses, damages, liabilities, costs, and expenses (including reasonable attorneys' fees) arising out of or in connection with any failure by the Contractor or its personnel, subcontractors, or agents to comply with the safety requirements set forth in this clause. The bidder/ agency acknowledges that ensuring the safety of workers on high towers is of paramount importance and agrees to take all necessary precautions and implement best practices to prevent accidents and injuries.

SECTION – V: SCOPE AND TECHNICAL SPECIFICATIONS

- 1. Introduction:** The intent of this EOI is to empanel technically competent vendors/ agencies, capable of undertaking design, fabrication, installation, testing and commissioning of Towers, for supporting FM broadcasting antenna, Microwave dish antenna & Mobile antenna etc. Post completion of the empanelment process, vendors/ agencies for execution of specific projects will be selected through an RFP/ enquiry from amongst the empanelled vendors.

To enable the bidders to understand the nature of work that will be required to be executed by them post empanelment (against specific project RFPs/ enquiries which will be issued by BECIL to the empanelled bidders), description of scope of work for such projects is provided in the succeeding paragraphs. However, it may be understood that at this stage, the scope of work is only indicative, and will vary based on the specific project/ client requirements.

Indicative Scope of Work

BECIL requires 30/40/50/80/100 M Self Supporting Lattice Steel microwave link etc steel tower of mean probable design life of 50 years to support FM broadcasting antenna, Microwave dish antenna. The towers shall be self-supporting type having square section base out of galvanized steel sections/structures of four legs. Provision of 600 mm × 600 mm cross section for mounting of FM Side Mount antenna on upper portion for 30, 40, 50, 80 Meter heights of tower.

The tower shall be designed to take self-load and wind load. Specify some value of wind speed which the tower is expected to withstand (say 100 kmph or some value as applicable)

2. Scope:

This specification aims at design, fabrication, supply, erection, testing and commissioning of 30/40/50/80/100 M Self Supporting Lattice Steel tower to support VHF FM antenna, Microwave dish antenna, Mobile antenna etc. as stated above, on turnkey basis.

The empanelled vendor/ agency will be required to undertake the following:-

- a. Preparation and submission of working structural, erection and shop drawings & vetting/certification of the design & structural drawings by any IIT / SERC. Soil testing should be undertaken mandatorily, prior to the design phase.
- b. Fabrication, supply, erection, testing and commissioning of tower structure and tower appurtenances /accessories including antenna apertures, internal ladders with free fall prevention system for climbing from ground to top of the tower, platforms with railings, Vertical Cable tray & Horizontal Cable tray as per actual site conditions between transmitter building up to tower, pipe for mounting of FM Side Mount antenna, fixture for mounting of Microwave dish Antenna etc.
- c. Painting of the tower structure.
- d. Providing protection against lightning, earthing of tower, Aviation Obstruction Lights (AOL) including Beacon light and sun-switch including cables for AOL . The power supply cable for multi-point power sockets at various platforms, from bottom to the topmost platform of the tower, will also be supplied by the agency.
- e. Supply and erection of vertical RF feeder cable for installation of RF cable at tower.
- f. Supply and erection of Horizontal cable is it horizontal or vertical cable tray ? or both? tray for RF feeder cable and other cables i.e. cables for AOL, power supply etc. between

the Pvt. Broadcaster transmitter building and the tower base shall be routed on a horizontal cable tray supported on G.I. Poles/Angle Iron structure which will be supplied by the Agency. The cables on the horizontal cable tray shall be provided G.I. sheet cover of 16 SWG to avoid any damage to RF cable due to any falling objects. Ground has to be properly leveled after erection of the tower & cleared of all debris etc.

- g.** Vetting & certification of the Tower design (for structural strength etc) and Inspection and certification for structural firmness, verticality and all other design specifications by any IIT/SERC during construction and after erection of tower and submission of inspection report & certificate(s) (in hard & soft copies)
- h.** Handing over of tower with completion report (in soft & hard copies) along with 'as fitted/ as erected drawings' of the Tower, including photographs & showing complete tower as well as each section of 20 M length from base to top, horizontal cable tray and foundation processes starting of excavation, steel layout and reinforcements etc. to finished foundation.
- i.** Any other work necessary to complete the DSETC work as a turnkey job.

3. Design of tower

- a.** The design of the tower shall be based on recognized principles of structural design Engineering, conforming to latest IS codes and Standard Engineering Practices. Full responsibility regarding soundness of design including factor of safety and the execution of work rests with the Agency. For limit state of strength, partial safety factor for loads under worst atmospheric conditions and critical loadings shall be considered as a minimum 1.6 on any destabilizing load (including but not limited to, wind loads). If dead load contributes to the reduction of stresses or supports the stability for any particular action, suitable expected dead loads shall be considered.
- b.** The overall force co-efficient for wind load on tower shall be taken from IS: 875 amended to date for Self- Supporting Lattice Steel Towers. For calculating the solidity ratio, actual obstruction area of tower shall be considered. Separate Wind obstructing areas shall be taken for ladder, cable rack and platforms etc.
- c.** The permissible stresses in the various structural members of tower shall be adopted from the relevant clauses of IS: 800 amended to date.
- d.** Loading effect of seismic forces as per IS: 1893 amended to date and cyclonic winds and conditions of frost etc., if any, is also be taken into consideration.
- e.** The R.C.C foundation, tie beams etc, shall be designed and constructed in accordance with IS:11233 amended to date, IS:456 amended to date and other application codes. The minimum grade of concrete used shall be M-25.

4. Patents and copy rights.

The participants shall hold the purchaser and his employees safe, harmless and immune from any liability that may arise out of infringements of patents and copyrights associated with the design, fabrication, erection and use of the tower and its accessories.

5. Safety compliance

In case any work related to design/ fabrication/ construction of Towers is awarded by BECIL to

any bidder/ agency empanelled against this EOI, The bidder/ agency shall be solely responsible for ensuring the safety of all personnel, including its employees, subcontractors, and agents, involved in work performed on or near high towers. Without limiting the generality of the foregoing, the bidder/ agency shall implement and strictly adhere to the following safety measures and requirements:

- j) **Compliance with Regulations:** The bidder/ agency shall comply with all applicable local, state, and national safety laws, regulations, codes, and standards pertaining to work at height, including but not limited to regulations concerning fall protection, scaffolding, ladders, lifting equipment, and electrical safety.
- k) **Risk Assessment and Safety Plan:** Prior to commencing any work on high towers, the bidder/ agency shall conduct a comprehensive risk assessment to identify all potential hazards associated with the work. Based on this assessment, the Contractor shall develop a detailed site-specific safety plan. This plan shall outline the specific safety procedures, equipment, and precautions to be implemented to mitigate identified risks. The Contractor shall ensure that all personnel involved in the work are thoroughly briefed on and understand the safety plan.
- l) **Fall Protection:** The bidder/ agency shall provide and ensure the proper use of appropriate fall protection systems for all personnel working at heights of six (6) feet or more above a lower level. This includes, but is not limited to, the provision and mandatory use of personal fall arrest systems (PFAS), safety harnesses, lanyards, anchor points, safety nets, guardrails, and other fall prevention measures as deemed necessary by the risk assessment and applicable regulations. All fall protection equipment shall be inspected regularly by a competent person in accordance with manufacturer's instructions and applicable standards.
- m) **Competent Personnel:** All personnel involved in work on high towers, including those erecting, dismantling, inspecting, or using scaffolding, operating lifting equipment, or performing any other high-risk activities, shall be competent and adequately trained for the specific tasks assigned to them.
- n) **Safe Access and Egress:** The bidder/ agency shall establish and maintain safe means of access to and egress from all work areas on high towers. This includes the provision of safe and stable ladders, scaffolding erected and inspected by competent personnel, personnel hoists, or other approved methods.
- o) **Weather Conditions:** The bidder/ agency shall monitor weather conditions and shall cease work on high towers if conditions such as high winds, lightning, heavy rain, or other adverse weather pose a safety risk to personnel. Work shall only resume when weather conditions are deemed safe by a competent person.
- p) **Emergency Procedures:** The bidder/ agency shall develop and implement comprehensive emergency procedures to address potential incidents such as falls, injuries, or equipment malfunctions. These procedures shall include provisions for prompt rescue, first aid, and communication. Emergency contact information and evacuation plans shall be readily available at the worksite.
- q) **Inspections and Audits:** The bidder/ agency shall conduct regular inspections of all safety equipment and procedures to ensure ongoing compliance with the safety plan and applicable

regulations.

Indemnification: The bidder/ agency shall indemnify and hold harmless the Client from and against any and all claims, losses, damages, liabilities, costs, and expenses (including reasonable attorneys' fees) arising out of or in connection with any failure by the Contractor or its personnel, subcontractors, or agents to comply with the safety requirements set forth in this clause. The bidder/ agency acknowledges that ensuring the safety of workers on high towers is of paramount importance and agrees to take all necessary precautions and implement best practices to prevent accidents and injuries.

Note:-

- ***This EOI is only for the empanelment of agencies that qualify as per the terms and conditions of the eligibility criteria mentioned in this EOI.***
- ***Vendors for subsequent award of work will be selected through a limited tendering process from the empaneled agencies only.***
